SUMMARY

Highly motivated Software Engineer and Creative Media Specialist with hands-on experience in modern web development, video editing, and graphic design. At 19, I bring a rare blend of technical skill and creative execution, building scalable digital solutions while crafting compelling visual content. Passionate about innovation, brand growth, and delivering high-performance digital experiences that merge functionality with strong visual identity.

EXPERIENCE

Software Engineer

- Present

Ion Hosting

- Developer and Video Editor at Ion Hosting Digital Services, with a proven ability to merge engineering precision and creative storytelling. Specializing in modern web technologies and professional video production, I help businesses build scalable systems and compelling digital experiences that drive growth and visibility.
